TOTAL IN residents covered by a smoke free law:		1,706,566 / 6,080,485 = 28.1%								

*Does not meet the conclusion from the The Health Consequences of Involuntary Exposure to Tobacco Smoke: A Surgeon General's Report, 2006, that states, "eliminating spaces fully protects nonsmokers from exposure to secondhand smoke. Separating smokers from nonsmokers, cleaning the air, and ventilating buildings cannot eliminate nonsmokers to secondhand smoke." These communities were not included in the population estimate -- % of IN residents protected by SF ordinances.
